D. Unexpended balances in agency accounts remaining at the end of fiscal year 2013 shall revert to the general fund by October 1, 2013, unless otherwise indicated in the General Appropriation Act of 2013 or otherwise provided by law.

E. Unexpended balances in agency accounts remaining at the end of fiscal year 2014 shall revert to the general fund by October 1, 2014, unless otherwise indicated in the General Appropriation Act of 2013 or otherwise provided by law.

F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of any operating budget reduced pursuant to this subsection.

G. Except as otherwise specifically stated in the General Appropriation Act of 2013, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2014. If any other act of the first session of the fifty-first legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2013 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.

H. The department of finance and administration will regularly consult with the legislative finance committee staff to compare fiscal year 2014 revenue collections with the revenue estimate. I. If approved by the state budget division, such money is appropriated.

J. For fiscal year 2014, the number of permanent and term full-time-equivalent positions specified for each agency shows the maximum number of employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2013 or another act of the first session of the fifty-first legislature provides for additional employees. For purposes of the General
Appropriation Act of 2013 or any other act of the first session of the fifty-first legislature, no employee shall be deemed to have an annual salary greater than twenty thousand dollars ($20,000) unless the employee’s full-time-equivalent base annual salary is greater than that amount or unless the employee’s base hourly wage is greater than nine dollars fifty-seven and nine tenths cents ($9.579).

K. Except for gasoline credit cards used solely for operation of official vehicles, telephone credit cards used solely for official business and procurement cards used as authorized by Section 6-5-9.1 NMSA 1978, none of the appropriations contained in the General Appropriation Act of 2013 may be expended for payment of agency-issued credit card invoices.

L. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2013 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.

M. For the purpose of administering the General Appropriation Act of 2013, the state of New Mexico shall follow the modified accrual basis of accounting for governmental funds in accordance with the manual of model accounting practices issued by the department of finance and administration.

K. PUBLIC SCHOOL SUPPORT

Except as otherwise provided, unexpended balances of appropriations made in this subsection shall not revert at the end of fiscal year 2014.
PUBLIC SCHOOL SUPPORT:

(1) State equalization guarantee distribution:
The purpose of public school support is to carry out the mandate to establish and maintain a uniform system of free public schools sufficient for the education of, and open to, all the children of school age in the state.

Appropriations: 2,361,895.8 1,500.0 2,363,395.8

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the secretary of public education. The secretary of public education shall establish a preliminary unit value to establish budgets for the 2013-2014 school year and then, on verification of the number of units statewide for fiscal year 2014 but no later than January 31, 2014, the secretary of public education may adjust the program unit value, except as otherwise provided.

The state equalization guarantee distribution includes sufficient funds to provide a one percent average salary increase for all teachers, other instructional staff and other licensed and unlicensed staff, and the compensation shall be effective the first full pay period after July 1, 2013. This amount does not include and is in addition to salary increases due to licensure advancement pursuant to the School Personnel Act, Article 10A of Chapter 22, NMSA 1978. Prior to the approval of a school district or charter school's budget, the secretary of public education shall verify each school district or charter school is providing an average one percent salary increase for all teachers and other licensed school employees and an average one percent salary increase for all unlicensed school employees.

The general fund appropriation to the state equalization guarantee distribution includes eleven million one hundred sixty-six thousand four hundred dollars ($11,166,400) pursuant to Section 22-11-21 NMSA 1978 and is contingent on enactment of legislation of the first session of the fifty-first legislature to improve actuarial solvency of the educational retirement fund.

The general fund appropriation to the state equalization guarantee distribution includes funding to implement targeted early literacy interventions and remediation, including reading coaches, reading specialists and teacher professional development to support kindergarten through third grade students who are not proficient in reading.

For fiscal year 2014, if the program cost and the appropriation for the supplemental special education maintenance of effort distribution made available in fiscal year 2014 are insufficient to meet
the level of state support required by the special education maintenance of effort requirements of Part B of the federal Individuals with Disabilities Education Act, up to sixteen million dollars ($16,000,000) is transferred from the state equalization guarantee distribution to the supplemental special education maintenance of effort distribution to meet the level of state support required by Part B of the federal Individuals with Disabilities Education Act for fiscal year 2014, and the secretary of public education shall reset the final unit value accordingly. The transfer is contingent on the public education department: 1) certifying that the program cost and the appropriation for the supplemental special education maintenance of effort distribution made available in fiscal year 2014 are insufficient in fiscal year 2014 to meet the maintenance of effort requirements of Part B of the federal Individuals with Disabilities Education Act; 2) reviewing with the legislative finance committee and the legislative education study committee the certification that the state equalization guarantee distribution transfer is needed to meet the maintenance of effort requirements of Part B of the federal Individuals with Disabilities Education Act for fiscal year 2014; and 3) obtaining board of finance approval to transfer and distribute funds. The public education department shall not request the transfer of more of the state equalization guarantee distribution to the supplemental special education maintenance of effort distribution than is necessary to meet the maintenance of effort requirements of Part B of the federal Individuals with Disabilities Education Act for fiscal year 2014. Distribution from the fund shall be made in the same manner and on the same basis as the state equalization guarantee distribution.

After considering those elementary physical education programs eligible for state financial support and the amount of state funding available for elementary physical education, the secretary of public education shall annually determine the programs and the consequent numbers of students in elementary physical education that will be used to calculate the number of elementary physical education program units.

For the 2013-2014 school year, the state equalization guarantee distribution includes sufficient funding for school districts and charter schools to implement a new formula-based program. Those districts and charter schools shall use current year membership on the first reporting date in the calculation of program units for the new formula-based program.

The general fund appropriation to the state equalization guarantee distribution reflects the deduction of federal revenue pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that
includes payments commonly known as “impact aid funds” pursuant to 20 U.S.C. 7701 et seq., and formerly known as “PL874 funds”.

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Leasing Act receipts otherwise unappropriated.

The secretary of public education shall verify and audit student membership and program units claimed by school districts and charter schools and shall work with and assist superintendents and school boards and head administrators and governing bodies of charter schools to ensure efficient spending practices, membership and program units are calculated correctly, and school district and charter school operating budgets are implemented in a manner that will minimize adverse impacts to instructional programs and student achievement. The secretary shall ensure the number of instructional days budgeted by a school district or charter school for the 2013-2014 school year is not reduced from the 2012-2013 school year.

The general fund appropriation to the state equalization guarantee distribution shall not be used by any school district or charter school to pay for expenses associated with student outreach, recruitment and school promotional activities including advertising and marketing efforts through mailers, telephone, television, newspaper or other print, radio or the internet. A school district or charter school found by the public education department to have spent state equalization guarantee distribution funds in this manner shall have their state equalization guarantee distribution decreased by the public education department accordingly.

Any unexpended balances in the authorized distributions remaining at the end of fiscal year 2014 from appropriations made from the general fund shall revert to the general fund.

Performance measures:

(a) Outcome: Percent of fourth-grade students who achieve proficiency or above on the standards-based assessment in reading 52%

Appropriations: 100,342.5 100,342.5

The general fund appropriation to the transportation distribution includes sufficient funds to provide a one percent average salary increase for all transportation employees, and the compensation shall be effective the first full pay period after July 1, 2013. This amount does not include and is in addition to salary increases due to licensure advancement pursuant to the School Personnel Act, Article 10A of Chapter 22, NMSA 1978. Prior to the approval of a school district or state-chartered charter school’s budget, the secretary of public education shall verify each school district or state-chartered charter school is providing an average one percent salary increase for all transportation employees.

The general fund appropriation to the transportation distribution includes two hundred ninety-three thousand eight hundred dollars ($293,800) pursuant to Section 22-11-2 NMSA 1978 and is contingent on enactment of legislation of the first session of the fifty-first legislature to improve actuarial solvency of the educational retirement fund.

(3) Supplemental distribution:

Appropriations:

(a) Out-of-state tuition 346.0 346.0

(b) Emergency supplemental 2,500.0 2,500.0

Prior to the distribution of emergency supplemental funds to any public school district or charter school, the secretary of public education shall verify with the New Mexico state auditor that the school district or charter school is in compliance with all provisions of Section 12-6-12 NMSA 1978. No emergency supplemental distributions shall be made to any school district or charter school not current with its audits.

Emergency supplemental funds shall not be distributed to any school district or charter school having cash and invested reserves, or other resources or any combination thereof, equaling five percent
or more of their operating budget.
